I'm a **Graphic Designer** experienced in social media design, campaign imagery, print creatives, and event visuals. I also work on white papers, newsletters, and research driven content. I use AI assisted design and AI video editing tools to speed up workflows, enhance creative output, and explore modern design approaches. I'm currently sharpening my skills in advanced video editing and AI based production to grow as a versatile visual creator.

Jr. Graphic Designer

The Hustler Collective

08/2024 - Present

- At Hustler, I worked on creative projects for **MediaTek**, contributing to social media campaigns, event visuals, chipset graphics, lifestyle imagery, newsletters, and white papers. This role became the foundation of my growth in modern design workflows, where I actively used **AI-assisted design** and **AI video editing tools** to speed up production, explore new visual ideas, and maintain brand accuracy across multiple formats. My work consistently supported fast-paced campaigns while adapting to evolving digital needs.

Jr. Graphic Designer

Infinite Possibilities

07/2023 - 01/2024

- Worked on strengthening the online presence of **Bazaar 5**, creating engaging social media content, infographics, and reels for their digital platforms. Handled photo editing, video editing, client coordination, and the creation of campaign visuals while maintaining consistent brand quality.

Graphic Design Intern

Save Life Foundation (east Nizamuddin)

10/2022 - 01/2023

- Created infographics and communication materials for road safety initiatives. Improved the clarity and visual impact of reports and public messaging. Received a certificate of completion for the internship.

Freelance Graphic Designer

Self Employed

10/2020 - 10/2022

- Worked independently on social media designs, campaign imagery, portraits, and illustrations. Managed client needs, handled research, and built a strong foundation in creative direction and consistent visual delivery.
